# EGMs premium Single Ball Count Technology.

Available networked or standalone.

## EGM 'N' Series

- Cash, token, pre-validated contactless cards, magstripe or barcode member cards options

## EGM 'S' Series

- Single Ball Count - total flexibility for your basket sizes
- Up to four sizes for cash/tokens are available
- Compatible with pre-validated card readers
- Happy Hour option for special rates
- Audit prints of up to 8 days are available with an optional handheld printer
- Settings can be easily changed with a provided EGM remote control

'N' Series can be linked to many leading software brands running on Windows

All the functionality of our 'S' series dispensers plus:

- Can be linked to a PC running range management software. Compatible with most brands - ask for details
- Loyalty schemes offer total flexibility for pricing structures
- Magstripe and Barcode member cards options available
- Disposable paper vouchers eliminate tokens for casual customers, meaning better security than tokens
- Paper vouchers issued at the computer are then validated at the dispenser.

'Behind the Wall' Dispensers

**European Golf Machinery Ltd**  
**Rangeball UK Ltd**

www.rangeball.co.uk :: info@rangeball.co.uk :: tel: +44 (0)1473 277177 :: fax: +44 (0)1473 277100

**Ball dispensers made by EGM**  
**come in two types:** Tip tray  
 delivery and Single ball count.

The tip-tray dispenser has a set amount of balls resting on a rocking platform, which tips them off when the machine is operated. This plate can be adjusted to tip up to 30 balls at a time. The control unit can operate the tray up to four times for one vend. We can fit a token acceptor to the dispenser that recognises four different types of token, each one instructing the machine to tip either 1,2, 3 or 4 times. In this way it's possible on a machine that is set to vend, say 20 balls per tip, to have a 20, 40, 60 and 80 balls delivered per vend, depending on which token is inserted. Cash coins can also be used for one vend, but this reduces the token vends to three on the basic (B) dispensers.

Single ball count dispensers have a narrow conveyor which transports golf balls in a row from the storage hopper to the vend point. At the end of their travel they pass a light beam which counts them. Once the required amount has been counted, the conveyor is stopped. This means that, unlike the tip-tray machines, the vend quantities do not have to be based on a set amount.

**A reliable and efficient method of cleaning golf balls.** Choose either the E800 machine for smaller demands or the E2000 for higher throughputs.

**E800 Golf Ball Washer**

**E2000 Golf Ball Washer**

**Elevators**

- Sturdy, long-life galvanised water tank
- Easy access for cleaning and filling
- Gentle washing action
- Automatic wash and empty available. Compatible with EGM elevators
- Manufactured in the UK with a 2-year warranty, subject to terms
- Very low maintenance downtime
- Compatible with 2" fittings for routing to a drain point
- Environmentally friendly – constant water feed not required.

**Elevators: A simple but essential tool for filling ball dispensers in the modern driving range**

- Heavy duty, sealed drive roller
- Long-lasting conveyor belt
- Available in various lengths to suit most applications
- Automatic Start/Stop available. Compatible with EGM washers
- Custom build options available

**Standard and bespoke dividers custom made to your specification.**

EGM can supply a wide range of netted and carpeted bay dividers as well as ball deflectors. For further information and pricing please contact us.

Netted Bay Dividers

Outdoor 'Teardrop' Dividers

- Our bay dividers and ball deflectors are suitable for indoor and outdoor use.

Carpeted Bay Dividers

Ball Deflectors

Netted Indoor/Outdoor Dividers

- Custom printing available

**Quality spikeproof range carpet from EGM.** A durable rubber backing makes this carpet and tiles both waterproof and resistant to golf spikes. Contact us to discuss your specific requirements

- Waterproof and resistant to golf spikes
- Durable rubber backing
- Looped pile
- Long-lasting
- Perfect for high traffic areas

**See our range of bay dividers**  
 Visit [rangeball.co.uk](http://rangeball.co.uk) or ask for an info sheet

• Due to the limitations of the printing process, please note that the carpet colours shown here are only representative of the colours available. Please ask for a sample pack.

**Space-saving dispensers for those tight or awkward spaces.** At only 50cm (20") wide, the 'Flush' dispenser is ideal in situations when a standard cabinet size is unsuitable. The single outlet dispenses from the end of the machine, making the 'Flush' ideal for narrow walkways and the rear of bays.

- Available in Moss Green. Other colours available to order.
- 4000 or 7000 golf ball capacity.
- Can be operated from mains or 12v battery.
- Lockable lid and cabinet doors.

*Flush Four*

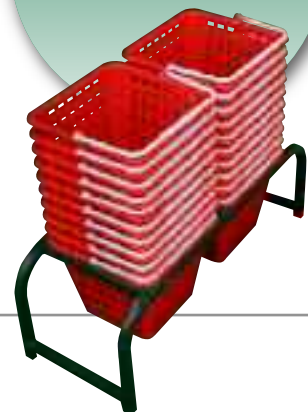

*Flush Seven*

Flush dispensers can be fitted with the optional card reader

See our range of baskets and balls. Visit [www.rangeball.co.uk](http://www.rangeball.co.uk)
